Da Nang City, Vietnam

My full name is Bui Thanh Binh. I am 22 years old and I graduated from the University of Education - University of Danang. My major is Information Technology.

I enjoy coding and learning about new technologies. I want to have the opportunity to do an internship at the company to gain more experience, improve my knowledge and skills, as well as apply the acquired knowledge to the real working environment.

Long-term goal: I wanna acquire all the skills I can use for my future profession. I want to be a Frontend Developer, raise the level of English and maybe go beyond becoming a Fullstack Developer in the future and bring value to the company.
